

**REMARKS/ARGUMENTS**

The claim amendments presented above cancel two claims and amend two claims. Consequently, no additional claim fees are due as a result of this filing. Further, it is believed that a two-month extension of time is required. Accordingly, a Petition for a two-month extension of time accompanies this Response.

The Office Action rejects pending claims 15, 16, 19, 20, 21, 22-25 and 28-31 as being anticipated by U.S. Patent No. 5,898,162 (Koenck). Applicant respectfully disagrees with this rejection. Claims 16 and 25, for example, specify that the image generator “projects” the visual image onto a planar region. The cited reference does not project an image. Rather, the image of the reference remains located on the display screen that created it. Independent claims 15 and 23 have been amended to clarify this feature.

Finally, pending claims 32-36 are not addressed in the Office Action. Applicant requests examination of these claims.

Applicant believes that the above remarks provide a complete response to the issues presented in the Office Action. A Notice of Allowance is respectfully requested.

Respectfully Submitted,
